

K2 Semi Rotary Hand Pump

PRODUCT DESCRIPTION

This manual, cost-effective pump benefits from sturdy cast iron construction, back plate lugs for easy mounting and removable inlet/outlet flanged. It's available in a number of sizes with differing flow rates depending upon individual requirements.

PERFORMANCE

- Approximately 3.5m lift, 3.0m delivery and 1" pipe
- 26 lpm—single stroke
- 37 lpm—double stroke

All approximate figures.

INSTALLATION AND USAGE INSTRUCTIONS

1. Remote paper seals before installation
2. Install vertically only (K2 mark at top)
3. Tighten flange bolts before use
4. Nip-up large nut around shaft
5. Fit handle to shaft in required position
6. Use foot valve on suction lift greater than 2m
