YL2 Semi Rotary Hand Pump

PRODUCT DESCRIPTION

This manual, cost-effective pump has a superior red finish, smooth operation and sturdy cast iron construction. This hand pump also boasts removable flanges, heavy duty handle and improved gland packing seals with replaceable gland packing.

PERFORMANCE

- Approximately 2.5m lift, 3.0m delivery and 1" pipe
- 23 lpm—single stroke
- 31 lpm—double stroke

All approximate figures.

INSTALLATION AND USAGE INSTRUCTIONS

1. Remove rubber seals before installation
2. Install vertically only (YL2 mark at top)
3. Tighten flange bolts before use
4. Nip-up large nut around shaft
5. Fit handle to shaft in required position
6. Use foot valve on suction lift greater than 2m
